HUNDREDS KILLED OUTSIDE OF

By CARL D. GROAT,
(United Press Staff Correspondent.)

Berlin, Sept. 22.—Casualties in the explosion disaster at Oppau will amount to more than 4,000 killed and injured, it was estimated today by the rescue parties penetrating the fog poisoned gas which hung over the scene of the tragedy.

Nearly 1,000 bodies already have been recovered. More than 2,500 injured are being treated at hospitals. French troops are guarding the area. One report said a company of French troops stationed at the factory were wiped out by the explosion yesterday. Only a great gaping chasm marks the scene of the explosion.

Berlin, Sept. 22.—Penetrating the fog of poisoned vapour which still hovers over Oppau, scene of the greatest explosion disaster in Germany's history, rescue corps with gas masks today fought for the lives of possible survivors while the total dead today are estimated at 1500.

Five hundred bodies have been taken from the shattered ruins about the plant of the Aniline works near Ludwigshaven which was destroyed together with the little town of Oppau by a series of terrific explosions yesterday morning.

Scores of injured were taken from the wreckage far from the scene of the original explosion but it was feared those trapped in the fatal area had been killed by poison fumes which yesterday prevented rescue work.

Piteous scenes were witnessed at the cemetery in Mayence where the bodies of nearly 200 dead were laid out for identification by relatives. In most instances the victims were so mutilated by the explosion that they could not be recognized.

Investigation as to the cause of the explosion will be started at once. Rumors blaming the bolsheviks and other enemies of Germany are current here, and near the scene of the disaster, were unconfirmed. The first explosion occurred at 7:30 yesterday morning while a change of shifts was under way. It was followed immediately by another terrific explosion which actually lifted the main factory building from the ground hurling chimneys, machinery and men hundreds of feet into the air completely burying and destroying three shift trains in men to the factory.

The blast was felt for a distance of fifty miles around. All workers in and about the plant, about 800 men, were killed. Further explosions followed.

The Rheinisch high commissioner has allocated 100,000 marks for relief work in Oppau, the little village which was completely destroyed. The French supply corps near the scene of the disaster has opened a food kitchen and shelter for refugees.

MILITARISM WILL BE VITAL ISSUE IF CONFERENCE FAILS

TO LIMIT ARMAMENTS IN THE
OPINION OF W. J. BRYAN—PEO-
PLE WILL DEMAND SAME

By HERBERT WALKER,
(United Press Staff Correspondent.)

Washington, Sept. 22.—Militarism will become a vital issue of world powers if President Harding's conference on limitation of armaments fails to put a check on international armament, W. J. Bryan said today in an interview with the United Press.

The people of the United States and the entire world will demand disarmament and have "high hopes" for the success of the conference, the commoner declared. Failure of the conference in my opinion probably would make militarism one of the main issues in the new presidential campaign, Bryan said. Munition makers and others, immediately after an unsuccessful conference, would raise the cry that the nation must be made the most powerful military and naval force in the world. They would demand another armament race and it would be the issue.

"Should the conference fail to reach an agreement, I believe the powerful reaction against the cabinets in power will set in. The people will demand new governments that will stop spending billions for armaments."

Preliminary Trial of "Fatty" Arbuckle Began This Afternoon

San Francisco, Sept. 22.—Battle lines were sharply drawn today for the fight which will decide whether Roscoe Arbuckle must go on trial with even his life in jeopardy for the alleged murder of Virginia Rappe, beautiful Los Angeles film actress.

The defense still reserving the right of silence was known to have prepared a case designed to set up for Arbuckle's contention that Miss Rappe's death might have been caused by anyone of several causes other than an alleged attack by Arbuckle.

It was not expected that the defense would offer any witnesses at Arbuckle's preliminary examination today. The state had summoned seven major witnesses and perhaps a dozen of less importance were said to be available.

Dr. Arthur Bearlee, one of Miss Rappe's attending physicians before her death, remains an unknown quantity in the case today. He had not arrived up to an early hour from the hunting camp in the Sierras and a detective was detailed to search for him. He had been expected here every day since Monday.

Miss Mae Parsons, also wanted as a witness, was likewise missing.

Arbuckle's preliminary hearing which opened this afternoon was expected to last the remainder of the week. It can have anyone of three outcomes. The court may require Arbuckle to stand trial for murder; it may reduce the charges to manslaughter, punishment for which is ten years' imprisonment, or it may release Arbuckle on the ground of insufficient evidence.

Sherman, Movie Witness, Testifies
New York, Sept. 22.—Miss Virginia Rappe was drinking and "hilarious" during the party which preceded her alleged fatal injury in Arbuckle's apartments in a San Francisco hotel, Lowell Sherman, movie "villain", told District Attorney Swann here today.

Sherman, one of Arbuckle's companions at the party, was taken before Swann at the request of San Francisco authorities who wanted him as a witness in the Arbuckle trial for the murder of Virginia Rappe.

After eluding officials who met his train yesterday Sherman made no effort to escape them today, going to the Swan office where he promised to keep officials in touch with his whereabouts so they could get him at any time. Sherman gave Swann a detailed account of Arbuckle's party.

SERBIANS START OFFENSIVE WAR AGAINST ALBANIA

LEAGUE OF NATIONS TO CONSIDER
MATTER—MAY LEAD TO NEW
BALKAN WAR

(By United Press)

Geneva, Sept. 22.—With the Serbians starting an offensive war against the Albanians along the Drina front, Europe today was trying to avert a new Balkan war. The Serbian and Albanian clash was before the league of nations today for action.

It is believed the league would order Serbia to abandon the attack. If Serbia refuses the league's power to enforce its orders, it will be put to a severe test.

League delegates today awaited fresh advice from the Drina front where according to latest dispatches the Serbians had opened a bombardment on Albanian villages. Bishop Noti, head of the Albanian delegation, called the league's attention to the threatened war. He demanded that the league take action.

HARDING PLEASED AT TURN OF AFFAIRS

By RAYMOND CLAPPER,
(United Press Staff Correspondent.)

Washington, Sept. 22.—President Harding was frankly pleased today at several rifts appearing in the storm clouds which have hung menacingly over the republican affairs for the last few weeks.

The reasons assigned for the new feeling of optimism are:

1. The republican victory in the New Mexico senatorial election.
2. Dwindling of democratic opposition to the Harding-Hughes treaties with Germany, Austria and Hungary.
3. Decision of Senator Underwood, democrat senate leader, to backing the administration throughout the disarmament conference regardless of party differences.
4. Prospect of early action on tax revision.

Much criticism on the alleged inactivity of congress reached the ears of the presidential party during the recent trip. As a result President Harding has decided to make no further out of town engagements for the present so that he can spend more time on the job in Washington.

McGrath is Freed on Charge of Starting Forest Fires in Aitk'n County

(By United Press)

Aitken, Sept. 21.—After 10 minutes' deliberation the jury in the case of James E. McGrath, Stillwater, on trial here today charged with starting fires which devastated the White Pine region Sept. 3, supplemented a verdict of acquittal with a denunciation of the prosecution.

The jurors' report, submitted to Judge J. C. Hessian, read:

"We, the members of the jury in the case of the state of Minnesota against James E. McGrath, in addition to the verdict of acquittal which we have returned to the court, wish to express our disapproval of the prosecution of this case, and to state that we greatly deplore the fact that a reputable citizen with an unblemished reputation should be forced to defend himself in the courts of this state against a most serious charge absolutely unsubstantiated by any evidence."

The report was signed by all of the jurors.

RACIAL EQUALITY NOT TO BE DISCUSSED AT ARMS CONFERENCE

(By United Press)

Tokio, Sept. 2.—Japan will not introduce the question of racial equality into the conference on limitation of armaments according to the Kokumin, a Japanese newspaper.

The paper said that the Japanese government had reached such a decision because the United States had intimated it would approve the Morris-Shidehara immigration agreement which was negotiated some months ago.

FARM IMPROVEMENT FALLEN 50 PERCENT

AND PURCHASERS OF MACHINERY
GREATER MINNESOTA FARM
BUREAU FEDERATION
ANNOUNCES

(By United Press)

St. Paul, Sept. 22.—Improvements on farms and farm homes have fallen almost to nothing and sales of farm machinery have decreased 50 to 95 per cent in Minnesota during the last year, the Minnesota Farm Bureau Federation announced today.

The federation's survey of the effects of deflation on agricultural progress reflects a serious situation, it was said.

Reports from 69 county farm bureaus form the basis of the report. County agents in most cases inspected a majority of farms in their territory. Statements from retailers of lumber, tile, hardware, fencing and farm machinery were obtained.

Three of the 69 counties placed the purchase of farm machinery at 50 per cent below normal. The other 66 declared that the decreased buying power had compelled farmers to reduce machinery purchases as low as five per cent of normal. Few purchasers show 25 per cent of normal. Koochiching and Mille Lacs counties estimated machinery purchases about equal to normal.

In 38 counties farm bureaus report inability to buy equipment to be a serious handicap in planting and harvesting next year's crop. Eleven counties report expenditures for farm upkeep at more than one half of normal while fifty counties report such expenditures are from 50 to 95 per cent less than normal.

In almost every report it was stated that farmers are anxious to buy, but have no money with which to buy.

Mrs. Hill is a daughter of Norton Barrows, St. Paul attorney. The present action follows dismissal of a similar suit in St. Paul, where the Hills formerly lived.

Lodge Displeased

By L. C. MARTIN,
(United Press Staff Correspondent.)

Washington, Sept. 22.—Senator Lodge is displeased at the apparent indifference of many republican senators toward the big and important task upon which the senate has begun work.

This indifference, Lodge thinks, was greatly indicated by the absence of the opening session yesterday of 26 republican senators out of a total of 59.

As a result of the Lodge absentee list, it is likely that unless more return within the next two days they will receive a polite but firm note from Senator Curtis, Lodge's chief lieutenant, urging them to "get back on the job."

Lodge's leadership has been under fire recently.

The threatened conflagration in middle Europe's powder box where the slightest flare can start another of the interminable Balkan wars may be averted by complete action but the league has been split into two factions by introduction of the dispute between Albania and Jugo Slavia in the assembly.

SERBIANS START
OFFENSIVE WAR
AGAINST ALBANIALEAGUE OF NATIONS TO CONSIDER
MATTER—MAY LEAD TO NEW
BALKAN WAR

(By United Press)

Geneva, Sept. 22.—With the Serbians starting an offensive war against the Albanians along the Drina front, Europe today was trying to avert a new Balkan war. The Serbian and Albanian clash was before the league of nations today for action.

It is believed the league would order Serbia to abandon the attack. If Serbia refuses the league's power to enforce its orders, it will be put to a severe test.

League delegates today awaited fresh advice from the Drina front where according to latest dispatches the Serbians had opened a bombardment on Albanian villages. Bishop Noti, head of the Albanian delegation, called the league's attention to the threatened war. He demanded that the league take action.

HARDING PLEASED
AT TURN OF AFFAIRSBy RAYMOND CLAPPER,
(United Press Staff Correspondent.)

Washington, Sept. 22.—President Harding was frankly pleased today at several rifts appearing in the storm clouds which have hung menacingly over the republican affairs for the last few weeks.

The reasons assigned for the new feeling of optimism are:

1. The republican victory in the New Mexico senatorial election.
 2. Dwindling of democratic opposition to the Harding-Hughes treaties with Germany, Austria and Hungary.
 3. Decision of Senator Underwood, democrat senate leader, to backing the administration throughout the disarmament conference regardless of party differences.
 4. Prospect of early action on tax revision.
- Much criticism on the alleged inactivity of congress reached the ears of the presidential party during the recent trip. As a result President Harding has decided to make no further out of town engagements for the present so that he can spend more time on the job in Washington.

McGrath is Freed on
Charge of Starting Forest
Fires in Aitk'n County

(By United Press)

Aitkin, Sept. 21.—After 10 minutes' deliberation the jury in the case of James E. McGrath, Stillwater, on trial here today charged with starting fires which devastated the White Pine region Sept. 3, supplemented a verdict of acquittal with a denunciation of the prosecution.

The jurors' report, submitted to Judge J. C. Hession, read: "We, the members of the jury in the case of the state of Minnesota against James E. McGrath, in addition to the verdict of acquittal which we have returned to the court, wish to express our disapproval of the prosecution of this case, and to state that we greatly deplore the fact that a reputable citizen with an unblemished reputation should be forced to defend himself in the courts of this state against a most serious charge absolutely unsubstantiated by any evidence." The report was signed by all of the jurors.

Tariff Bill is Laid
Aside for Two Months

(By United Press.)

Washington, Sept. 22.—The republican tariff bill will be laid aside for the next two months while treasury experts work out details of the American valuation plan adopted by the senate finance committee, Chairman Penrose announced today.

RACIAL EQUALITY NOT
TO BE DISCUSSED AT
ARMS CONFERENCE

(By United Press)

Tokio, Sept. 2.—Japan will not introduce the question of racial equality into the conference on limitation of armaments according to the Kokumin, a Japanese newspaper.

The paper said that the Japanese government had reached such a decision because the United States had intimated it would approve the Morris-Shidehara immigration agreement which was negotiated some months ago.

FARM IMPROVEMENT
FALLEN 50 PERCENTAND PURCHASERS OF MACHINERY
GREATER, MINNESOTA FARM
BUREAU FEDERATION
ANNOUNCES

(By United Press)

St. Paul, Sept. 22.—Improvements on farms and farm homes have fallen almost to nothing and sales of farm machinery have decreased 50 to 95 per cent in Minnesota during the last year, the Minnesota Farm Bureau Federation announced today.

The federation's survey of the effects of deflation on agricultural progress reflects a serious situation, it was said.

Reports from 69 county farm bureaus form the basis of the report. County agents in most cases inspected a majority of farms in their territory. Statements from retailers of lumber, tile, hardware, fencing and farm machinery were obtained.

Three of the 69 counties placed the purchase of farm machinery at 50 per cent below normal. The other 66 declared that the decreased buying power had compelled farmers to reduce machinery purchases as low as five per cent of normal. Few purchasers show 25 per cent of normal. Koochiching and Mille Lacs counties estimated machinery purchases about equal to normal.

In 38 counties farm bureaus report inability to buy equipment to be a serious handicap in planting and harvesting next year's crop. Eleven counties report expenditures for farm upkeep at more than one half of normal while fifty counties report such expenditures are from 50 to 95 per cent less than normal.

In almost every report it was stated that farmers are anxious to buy, but have no money with which to buy.

J. J. HILL'S SON
SUED FOR DIVORCE

Los Angeles, Sept. 22.—Asking a divorce on the ground of desertion, the case of Dorothy B. Hill, wife of Walter J. Hill, son of the late J. J. Hill, empire builder and president of the Great Northern railroad, is scheduled to come up before Judge Thomas Toland in superior court tomorrow.

Mrs. Hill is a daughter of Norton Barrows, St. Paul attorney. The present action follows dismissal of a similar suit in St. Paul, where the Hills formerly lived.

Lodge Displeased

By L. C. MARTIN,
(United Press Staff Correspondent.)

Washington, Sept. 22.—Senator Lodge is displeased at the apparent indifference of many republican senators toward the big and important task upon which the senate has begun work.

This indifference, Lodge thinks, was greatly indicated by the absence of the opening session yesterday of 26 republican senators out of a total of 59.

As a result of the Lodge absentee list, it is likely that unless more return within the next two days they will receive a polite but firm note from Senator Curtis, Lodge's chief lieutenant, urging them to "get back on the job."

Lodge's leadership has been under fire recently.

LEAGUE IS ASKED TO
PREVENT BALKAN WAR

(By United Press.)

Geneva, Sept. 22.—Immediate intervention by the allies to prevent the Serbia-Albania dispute flaring into a new Balkan war was asked in a note addressed to the powers of England, France and Italy by the council of the league of nations today.

The threatened conflagration in middle Europe's powder box where the slightest flare can start another of the interminable Balkan wars may be averted by complete action but the league has been split into two factions by introduction of the dispute between Albania and Jugo Slavia in the assembly.

Judge Wright of Park Rapids and Engineer R. A. Dahms were out on a tour of inspection Wednesday, of the material being used in the construction of the Walker-Cass Lake road. Much complaint has been made that the material was too fine and that some of it was clay instead of sand and gravel. The Judge was of the opinion that the material would work down in time and form a very satisfactory roadbed. There was parts of the road where he ordered some of the work fixed up to comply with the specifications. A number of cars from Cass Lake came out to meet the Judge as they have been anything but pleased with the material being put on the road.—Walker Pilot.

A. J. Williams, Northern Pacific railroad detective, was in Pillager on business matters the first of the week. Mr. Williams was here a year ago when the depot was robbed and a mail pouch stolen. The thief made his getaway but was later arrested at Olivia, Minn., and taken to Iowa where he was wanted for breaking a parole after serving five of a twenty-year sentence. Before Mr. Williams could get to him in Iowa he broke jail and has since been at large until being arrested about two months ago. He is now serving the remainder of his sentence in the Iowa penitentiary, and when his time is up, he will be arrested by Federal officials for robbing the mails at this place.—Pillager Herald.

At Tuesday's session of the board of county commissioners a strong delegation came up from the northern part of May township to press their claims to be set off from Pillager district No. 1. There was also a delegation from Pillager to oppose the petition. Those in favor of division were represented by an attorney from Brainerd. They believed that they would enjoy better school facilities at a lower cost if their wishes were granted. County Superintendent of Schools Ross was opposed to the change and gave reasons why he believed the present system would afford the better service. The matter was settled by the decision of the county

board to deny the petition.—Walker Pilot.

ALLEGES HEAVY PROFITS IN COAL

O. J. Boma in Communication to Dispatch Asserts Consumers Paid Too Much for Coal in 1920

\$1,500,000,000 TOO MUCH PAID

"Persistent Publicity is Required to Illuminate the Coal Situation", Asserted

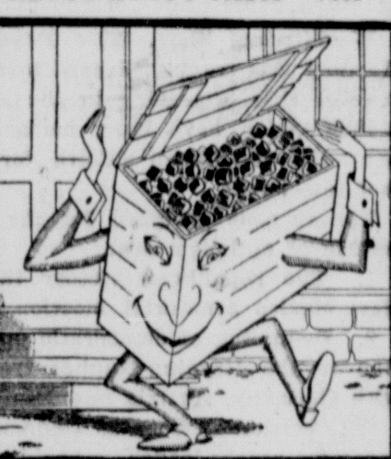

"The consumers of coal in the U. S. paid \$1,500,000,000 more for their fuel in the year 1920 than they should have paid," asserts O. J. Boma.

In a communication to the Dispatch he states further: "In a very extensive report the former Fuel Administrator Judge J. F. McGee attributes the cause of the high price of coal to the enormous lobby maintained in Washington by the coal operators. Judge McGee says that every proposal of his to give the government power to regulate the coal industry has been defeated; that the representatives of the people have refused to act in this matter. Senator Frelinghuysen and Senator Calder make the claim that the investigation by the committee appointed by the Senate find that the operators set aside \$400,000 every year to maintain this lobby and more when necessary."

"Among other things the coal operators threaten that if further investigation were made or attempted that all the forces controlled by the U. S. Chamber of Commerce would be thrown against them. They called the attention of the Senate to the enormous power behind this vast organization and claimed that all of the civic bodies throughout the U. S. were affiliated with the National Association. This is not true and I will venture to say that at least 50% of the civic bodies similar to our own

Porter-Nichols

Viola Mildred Porter became the bride of James Arthur Nichols on Wednesday evening, Sept. 21 at 8 o'clock at the home of the bride's sister and brother-in-law, Mr. and Mrs. Lawrence Koering where Rev. Fred Errington of the First Congregational church of Brainerd, read the ring service before a host of assembled relatives and friends.

The young bride is the youngest daughter of Mrs. Belle Porter of Crow Wing county where, after graduating from Brainerd High school, she taught school for three years, making many friends in the communities where the schools are located.

The bride-groom is the youngest son of Mrs. Addie J. Maurice of Drumheller, Alberta, Canada, who was a resident of Crow Wing county for a number of years. Mr. Nichols has spent most of his life in Crow Wing county, leaving it to go west for a brief period and, again, to enter training camp from which he went to France to be there for 18 months during which time he was raised to sergeant.

The house was decorated tastefully with streamers of pink and white, and autumn leaves while the tables bore well arranged clusters of asters, when the young couple accompanied by Mamie Leonore Perry and William W. Carter, both of St. Cloud, marched into the room to the strains of Lohengrin's wedding march played by Miss Maybelle Gregory.

The bride was beautiful in a dress of white silk georgette and bridal veil and wore no jewelry except the necklace of pearls the gift of the groom. The bride's bouquet consisted of pink tea roses.

The bridesmaid was tastefully dressed in pink organdy and carried a bouquet of pink and white carnations.

After the marriage ceremony a wedding supper was served to the relatives and guests present. The relatives were Mrs. Belle Porter, Crow Wing; Mrs. Alfred Quackenbush, Duluth; Mr. and Mrs. Ed. Anderson and son Roy, Brainerd; Mr. and Mrs. Linn Lougee and daughters Thelma and Dorothy, Crow Wing; Mr. and Mrs. E. O. Perry, Mr. and Mrs. S. E. Perry and daughter, Mamie, Netty Perry, Maybelle Gregory and William Carter all of St. Cloud.

The relatives of the groom present included, Mr. and Mrs. Berggreen and daughter Eva; Mr. and Mrs. D. G. Nichols; Mr. and Mrs. F. A. Butka of Crow Wing; Mrs. E. Blackburn of Anoka.

The guests present were Mr. and Mrs. Adolph Anderson, Alice and Agnes Anderson, Martin and Oscar Anderson, Mr. and Mrs. Pete Anderson and sons Harry and Arthur; Mr. and Mrs. L. Bailey; Dagmar Olsen; Mrs. A. E. Kinney.

The young people were given numerous presents by their relatives and friends.

Mr. and Mrs. Nichols left for St. Paul on Thursday where they will make their home. Mr. Nichols having been engaged in the garage business there for some considerable time.

SELF-GOVERNMENT FOR LAWYERS

At a recent meeting of the American Bar Association it was predicted that the voluntary state bar association of today is due to give way to an association created under the state statute, to which every lawyer will be required to belong. The object sought is the protection of the public and the legal profession from the unscrupulous lawyer. The associations would have disciplinary powers.

It is said that a definite movement to this end has already made considerable progress. Several states are planning such organizations and others are studying the subject. The plan of self-government for the bar is in effect in Canada, and the Inns of Court of England, which serve as a model, have been in existence for centuries.

Gov. Preus has addressed a letter to many leading farmers of the state, urging them to attend the National Dairy Show, to be held on the Minnesota fair grounds, Oct. 8 to 15, and pointing out the value of this educational agricultural exposition to the agricultural interests of the state and country.

Oct. 9 will be the 50th anniversary of the date Mrs. O'Leary's cow kicked over the lantern causing the great Chicago fire, and the National Fire Protective Association has designated that day as international fire prevention day. A nation-wide observance of the day is asked for.

Germany is finding work more profitable and more generally satisfying than war, after giving both intensive tests. The lesson of military Germany should be of great value to the world.

And now the goosebone prophets are predicting a hard winter. "Somebody is always taking the joy out of life."

BRAINERD'S OLDEST
STORIES OF TODAY

It was a little bassereno that he bought from R. D. King that enabled J. F. Cibazar to catch the big muskellunge in the Mississippi.

We have heard any number of weather predictions, but we like Louis Sherlund's the best. He has predicted 90 days of elegant Indian summer, a little snow at Christmas so Santa Claus can get out his reindeer and sled, and then a mild winter so it won't be hard on a fellow's coal pile.

WALKER

Walker, Minn., Sept. 20.—Miss Edith Kulander is in Minneapolis taking a course in the McPhail Conservatory of Music.

The American Legion will hold a dance in the near future.

Frank C. Bragg has bought five lots and will build a modern home.

Mrs. V. A. Reed entertained the Catholic Ladies Aid society at her home on Wednesday afternoon.

Mrs. D. McMahon of Glengarry gave a luncheon in honor of Mrs. Junge of St. Paul.

Miss Vera Bacon will teach near Cass Lake the coming year.

A big community picnic is to be held at Hackensack on September 29. The poultry culling school will be in charge of Prof. Chapman of the University Farm.

Mrs. Metheba Rice, pioneer resident of Walker, passed away. She came to Walker in 1895, at a time when this section was a great white pine forest. The first store in the village was started by her sons, Howard and Herman Anway. She organized the first Sunday school in the settlement and assisted in establishing the Congregational church.

AMUSEMENTS

THREE "BILLS" AT THE LYCEUM
THIS WEEK

Farnum Triumphs in Latest Photoplay "His Greatest Sacrifice," in which William Farnum appeared yesterday at the Lyceum Theatre, should be very popular with the patrons of the Lyceum. It is a tensely dramatic story, and one in which the popular William Fox star shows to the full his splendid talents as an actor.

The story has to do with a wife who sacrifices home, husband and child to win fame as an opera singer. She does win fame, and with it wealth; but in after years, when glory has faded and she wants the greatest thing in the world—happiness—she finds she cannot get it from the husband and child she so selfishly abandoned.

"His Greatest Sacrifice" is fine drama finely acted, and will be shown again tonight.

Sandow of Screen Issues "Def" to
Auto Daredevils

William Duncan, who made such a "hit" in his new chapter play at the Lyceum last Friday and Saturday, is known as the Sandow of the screen, has issued a challenge to automobile daredevils and other professional death-defiers, to duplicate a feat performed by him in the second episode of "Fighting Fate," the latest Vitagraph chapter play. Duncan and Miss Edith Johnson, his leading lady, were driven in a limousine on to a platform, which was then swung into the air by a derrick chain.

The car had to be balanced and maneuvered with the greatest skill, to prevent it from toppling off the platform to the ground, a hundred feet below. It is this perilous "stunt," to be shown in the episode at the Lyceum theatre on Friday and Saturday, that Duncan wagers cannot be done by anyone else. Contrary to ordinary practice, no "doubles" were used in the scene, the stars taking their chances in person.

"Bill" Fairbanks will also appear in a dandy western picture, "The Broadway Buckaroo," which is claimed to be every bit as good as the Tom Mix pictures.

SELF-GOVERNMENT FOR LAWYERS

At a recent meeting of the American Bar Association it was predicted that the voluntary state bar association of today is due to give way to an association created under the state statute, to which every lawyer will be required to belong. The object sought is the protection of the public and the legal profession from the unscrupulous lawyer. The associations would have disciplinary powers.

It is said that a definite movement to this end has already made considerable progress. Several states are planning such organizations and others are studying the subject. The plan of self-government for the bar is in effect in Canada, and the Inns of Court of England, which serve as a model, have been in existence for centuries.

Gov. Preus has addressed a letter to many leading farmers of the state, urging them to attend the National Dairy Show, to be held on the Minnesota fair grounds, Oct. 8 to 15, and pointing out the value of this educational agricultural exposition to the agricultural interests of the state and country.

Oct. 9 will be the 50th anniversary of the date Mrs. O'Leary's cow kicked over the lantern causing the great Chicago fire, and the National Fire Protective Association has designated that day as international fire prevention day. A nation-wide observance of the day is asked for.

Germany is finding work more profitable and more generally satisfying than war, after giving both intensive tests. The lesson of military Germany should be of great value to the world.

And now the goosebone prophets are predicting a hard winter. "Somebody is always taking the joy out of life."

BRAINERD'S OLDEST STORIES OF TODAY

It was a little bassereno that he bought from R. D. King that enabled J. F. Cibuzar to catch the big muskellunge in the Mississippi.

We have heard any number of weather predictions, but we like Louis Sherlund's the best. He has predicted 90 days of elegant Indian summer, a little snow at Christmas, so Santa Claus can get out his reindeer and sled, and then a mild winter so it won't be hard on a fellow's coal pile.

WALKER

Walker, Minn., Sept. 20.—Miss Edith Kulander is in Minneapolis taking a course in the McPhail Conservatory of Music.

The American Legion will hold a dance in the near future.

Frank C. Bragg has bought five lots and will build a modern home.

Mrs. V. A. Reed entertained the Catholic Ladies Aid society at her home on Wednesday afternoon.

Mrs. D. McMahon of Glengarry gave a luncheon in honor of Mrs. Junge of St. Paul.

Miss Vera Bacon will teach near Cass Lake the coming year.

A big community picnic is to be held at Hackensack on September 29. The poultry culling school will be in charge of Prof. Chapman of the University Farm.

Mrs. Metheba Rice, pioneer resident of Walker, passed away. She came to Walker in 1895, at a time when this section was a great white pine forest. The first store in the village was started by her sons, Howard and Herman Anway. She organized the first Sunday school in the settlement and assisted in establishing the Congregational church.

AMUSEMENTS

THREE "BILLS" AT THE LYCEUM THIS WEEK

Farnum Triumphs In Latest Photoplay

"His Greatest Sacrifice," in which William Farnum appeared yesterday at the Lyceum Theatre, should be very popular with the patrons of the Lyceum. It is a tensely dramatic story, and one in which the popular William Fox star shows to the full his splendid talents as an actor.

The story has to do with a wife who sacrifices home, husband and child to win fame as an opera singer. She does win fame, and with it wealth; but in after years, when glory has faded and she wants the greatest thing in the world—happiness—she finds she cannot get it from the husband and child she so selfishly abandoned.

"His Greatest Sacrifice" is fine drama finely acted, and will be shown again tonight.

Sandow of Screen Issues "Def" to Auto Daredevils

William Duncan, who made such a "hit" in his new chapter play at the Lyceum last Friday and Saturday, is known as the Sandow of the screen, has issued a challenge to automobile daredevils and other professional death-defiers, to duplicate a feat performed by him in the second episode of "Fighting Fate," the latest Vitagraph chapter play. Duncan and Miss Edith Johnson, his leading lady, were driven in a limousine on to a platform, which was then swung into the air by a derrick chain.

The car had to be balanced and manoeuvred with the greatest skill, to prevent it from toppling off the platform to the ground, a hundred feet below. It is this perilous "stunt," to be shown in the episode at the Lyceum theatre on Friday and Saturday, that Duncan wagers cannot be done by anyone else. Contrary to ordinary practice, no "doubles" were used in the scene, the stars taking their chances in person.

"Bill" Fairbanks will also appear in a dandy western picture, "The Broadway Buckaroo," which is claimed to be every bit as good as the Tom Mix pictures.

Lewis was badly shot up at Chateau Thierry and walks only with aid of two crutches. Lewis was a member of the 5th Marines and when he saw his brother fall started forward to rescue him. Before reaching him he was himself struck by shrapnel. A comrade, Corporal Hess of St. Paul, crawling along on his stomach dragged Lewis to safety. Corporal Hess shortly afterwards gave his life on the field. Lewis, after many operations has recovered sufficiently to move about with the aid of his crutches. He has been active in Legion affairs being once National Vice Commander and twice Vice Commander of the Minnesota Department.

On Wednesday evening, Sept. 21 about 40 young ladies and gentlemen gathered at the home of Mr. and Mrs. Arthur T. Anderson for a party supposed to be for one of their number who has lately returned from the twin cities. During the early part of the evening Miss Elsa Peterson entered the room with a large package and announced she had been requested to present the same to Miss Ruth Anderson and Richard Lund, members of the gathering. They were taken so completely by surprise that they were speechless for a short time. Upon realizing they were the guests of honor the young couple expressed their hearty thanks for the gift and for the many good wishes.

Miss Anderson and Mr. Lund will be married in the near future and a few of their many friends took this method in extending good wishes.

The evening was spent in playing games, conversation and music. The young people served ice cream, cake and coffee during the evening and an enjoyable time was had by all.

Beside the election of officers, plans for the coming season will be freely discussed and it is desired that we exchange our differences and accept the best that each has to offer for the welfare of our home locality.

"There are no doubt many things to your mind that need to be altered and many changes made," said Rev. Cadwell, "and you will have a chance to get an outline in shape so that it will be understood and what is good will be accepted by the body as a whole."

"Ridicule and competition has no terrors for the man who has the 'goods' and courage to deliver them. The community graveyards are filled with bright, intelligent men who played 'Blind Man's Bluff' with public opportunities and guessed they were making good."

They are Buying The New Coats

And no wonder even though the weather does not demand them. There are always those who realize the value of an early selection.

This season is particularly favorable to the selection of coats. The manufacturers of whom we selected made prompt deliveries and our selections are much better than they usually are at this season of the year.

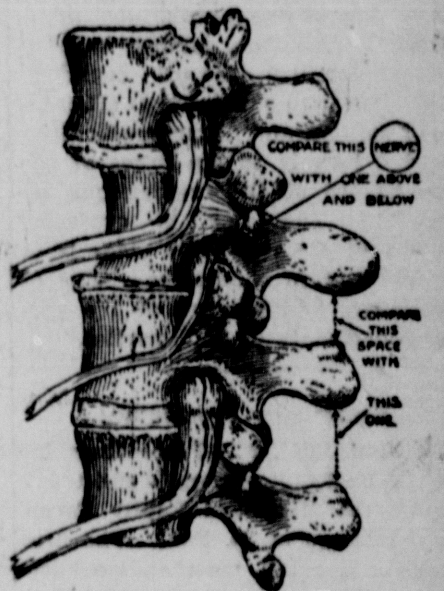

If you have not seen the new garments of thin soft warm cloths you have missed seeing some of the prettiest garments shown in many seasons.

are not affiliated with the National Association. But if it were so, what a splendid opportunity for organized labor to get behind these organizations and endeavor to change this condition as they no doubt have, unconsciously, in Brainerd.

"Judge McGee seems to think that the task is hopeless. The number of rebuffs with which he met in Washington no doubt has taken the fight out of him and the only remedy left is that of persistent publicity. This publicity will change public sentiment, take the public out of that lethargy into which they fall immediately after each election and cause them to give some attention to the practical issues and keep in touch with their representatives in Washington, letting them know that they are acquainted with the action of every representative in Congress and warning them when legislation was passed that was unfair to their constituents and the public at large.

"This condition in the fuel business is only one example of many things that come to the attention of an organization like the Chamber of Commerce, illustrating the fact that this organization has only one purpose—that of improving the conditions of living in this city.

"You sometimes wonder why business men, professional men and the public at large take a stand against some position taken by organized labor. We have as good reason for wondering why organized labor or its individual members assume an attitude of hostility toward organizations similar to ours. These differences of opinion and misunderstandings are due largely to ignorance of the true nature of the organizations referred to. The way to overcome these prejudices on both sides is to affiliate and to obtain knowledge of the nature and purpose of the various movements of both parties."

TRAVEL IN LUXURY

"Parlor, Bedroom, Kitchen and Bath", Regular Flat on One Ton Ford Truck of Iowa Men

Parlor, bedroom, kitchen and bath, all the comforts of home plus a change of scenery, fresh air, and the delights of outdoor life, fall to the lot of two Iowa men, Col. H. Splear and N. J. Greiner of Rock Valley, Iowa, who are leisurely touring the country in their one ton Ford remodeled house truck.

"It's a great life", said Col. Splear, as he was getting a shave at the Hess barber shop. "We motored from Iowa to Minneapolis and then came north and have had on trouble on the route. We intend to go to Remer and then to Duluth and see the country."

"We built our home on wheels on our own plans. The first thing sought was light weight. Every bit of unnecessary weight has been discarded with the same care that Henry Ford exercised in building his incomparable car.

"We have not sought style in our vehicle, but comfort and there's certainly lots of it. We have no trouble setting up tents in a rain storm. We are not worried about hotels. We have yet to find a bill that our home on wheels cannot scale."
